DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-64 drawn to a method for carrying out personal transactions utilizing registration steps utilizing PIN number, classified in class 705, subclass 42.
 - II. Claims 65-86, drawn to system and method for enabling a deaf person to leave a message for an intended recipient at a remote location, classified in class 379, subclass 52.
 - III. Claims 87-91, drawn to system and method for sharing operational data amongst conferencing parties including deaf participants, classified in class 379, subclass 52.
 - IV. Claims 92-97, drawn to system for enabling communications between a deaf person and a hearing person, classified in class 379, subclass 52.

- V. Claims 98-102, drawn to a system for enabling a voice communications to be received by a deaf person, classified in class 379, subclass 52.
- VI. Claims 103-117 drawn to a system and method for facilitating participation of a hard of hearing person in a conversation with a least one speaker in a public place, classified in class 379, subclass 52.
- VII. Claims 118-121, drawn to a system for improving the ability of a hard of hearing person to hear sounds issued over a telephone, classified in class 379, subclass 52.

2. Inventions I through VII are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions can be practiced without the specific limitations described in each of the above-described separate groups.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 3624

3. A telephone call was made to Mr. Kelmachter on 3-22-04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
